Quality*

Customers are amazed at the extreme ease of use of AmkaiCharts, and the very high quality of their professional form designs as well as the excellent customer support. Below are actual testimonials we have received.

"Amkai understands our business... Our support people from Amkai should have honorary medical degrees for their expertise in the field of medicine and their broad knowledge of Surgical Centers and Hospitals..."

"The support from Amkai is unsurpassed..."

"We don't have tickets because Amkai's support is immediate..."

"I just wanted to send you a quick note. We could not ask for a better group to work with or be associated with in this task..."

"Anyone who calls and asks for references or recommendations, we can give Amkai nothing but the highest compliments... Thank you Amkai for your hard work and dedication."

"I could not imagine working with any other software..."

"The little bit of resistance we had at the implementation of AmkaiCharts is nothing compared to what we would encounter today if we had to tell our staff they had to go back to paper..."

"Amkai has the holy grail of healthcare IT..."

"We used another EMR before implementing AmkaiCharts... For the first time we can go home after our last patient leaves..."

"We hear only two complaints relating to AmkaiCharts - first, if the network is down, the nurses have to use paper, second, that the staff has become so proficient, that they could use a faster server (they have passed the ability of the server to keep up with them)..."

"Finally I go home to my daughter on time..."

"We have identified drug related problems that would have not been discovered prior to the implementation of AmkaiCharts..."

Amkai

Case Study:

- Less clerical time on data entry
- Transcription savings
- Savings on chart pulls & paper handling
- More granular data captured aids data mining
- Improved billing
- Patient satisfaction creates referrals
- Physician recruitment aided by high technology reputation of facility

"It takes very little effort for the nurses to learn AmkaiCharts, since each department has their own section. This greatly improves efficiency, since you don't have to jump around in the system or turn pages in a paper chart... Cross training is easy as well, since each section has the same structure..."

"We installed a competing system. Within a week we realized that we were misled... We implemented AmkaiCharts... Our expectations were exceeded..."

"With pharmacy management and CPOE within AmkaiCharts, we have a total system—all from one vendor without typical interfacing problems with other products..."

"We know hospitals that have spent millions of dollars... Yet they don't even come close to where we are in technology and capability..."

"I work part time in two of the area's hospitals... AmkaiCharts is superior to what they have. There is just no comparison..."

"I am able to train new nurses to use AmkaiCharts in 3 hours..."

"We have paid toward a competing system... We realized they were not truthful about what they had... We asked for our money back and installed AmkaiCharts..."

"Within just a few months we have saved with AmkaiCharts in excess of 40% on transcription costs alone, and eliminated all paper charting expenses ..."

"I now leave when my last patient leaves. Before AmkaiCharts,, I was staying at least 2 hours each night to catch up on my charts - not anymore".

"I had a resident at the office, and by his second visit he was using the system without a problem".

"The IOP summary is worth the price of the system alone".

"The system is so easy to use and the support is top shelf. I would recommend this to any physician".

"My staff no longer has to waste time pulling charts for the next day, and then spend more time putting them back the following day".

"The Urinalysis integration saves me a lot of data entry - and without errors".
